

More Ultimate Formulations from Gulf Synthetics

UCF-30™ Ultimate Concrete Formula

A durable slip and stain-resistant coating for concrete and asphalt surfaces. Resurface pool decks, patios, porches, walkways, steps, driveways and concrete docks. Color choices are endless, allowing for decorative concrete projects to complement any environment.

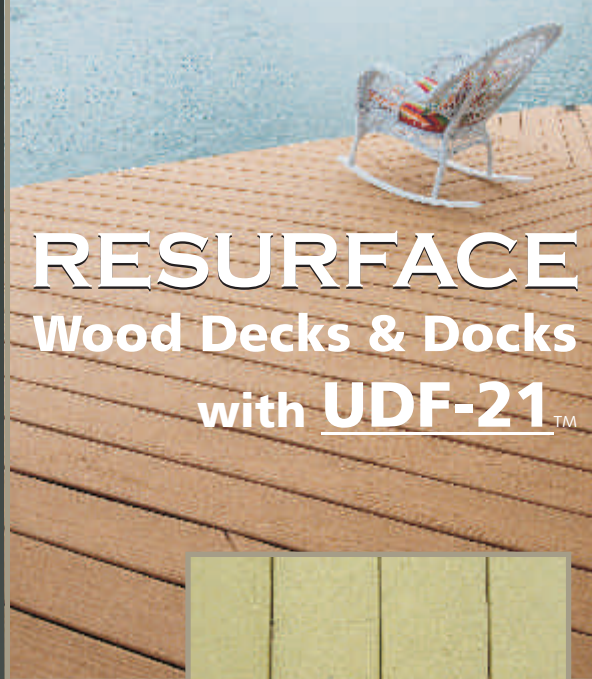

PermaPile™ Ultimate Pile Formula

A modified elastomeric asphalt emulsion formulated to protect piles, wales and timber. Encapsulates wood preservatives and prevents marine borer attack. Bonds to and protects metal hardware. Can be zone-coated and applied on-site. Non-toxic and odorless. Perfect for marine piles, piers, docks, wales, jetties, wharves and bulkheads.

PermaPaint™

A polymer paint additive that transforms any latex paint into a durable, long-lasting, non-fading elastomeric coating. Mix with interior or exterior latex paint to extend the life of paint applications for years. VOC-free and environmentally safe. Can be brushed, rolled or sprayed.

All formulas are environmentally friendly.

GULF SYNTHETICS

UDF-21™

ULTIMATE DECK & DOCK FORMULATION

Composite Coating for Wood

UDF-21™ is a state-of-the-art polymer coating that transforms old wood surfaces. It creates a super-tough composite coating that protects structures from the constant expansion and contraction cycle that destroys wood.

UDF-21™ is perfect for resurfacing wood decks, docks, boardwalks, porches, steps, ramps, gangways, rails, balusters and fences.

- Fills cracks and knots, locks down splinters and nailheads, restoring old decks and docks.
- Covers stains and provides a slip-resistant textured surface. Choice of roller determines texture.
- Offers unlimited color choices. Add one gallon of ANY color exterior latex paint to the kit and achieve color matching.
- Creates a durable new scuff, stain and fire-resistant surface that requires zero to little maintenance.
- Is high-build and quick-setting for minimal time-out-of-service.
- Environmentally friendly, VOC-free, non-toxic.
- Can be brushed or rolled on and tools clean up with water.
- Detailed instructions available in the kit or at gulfsynthetics.com.
