

So easy – just add one gallon of any color exterior latex paint to the kit. Detailed instructions are available in the kit or at gulfsynthetics.com.

More Ultimate Formulations from Gulf Synthetics

ConcreteRevive™

A durable slip and stain-resistant coating for concrete and asphalt surfaces. Resurface pool decks, patios, porches, walkways, steps, driveways and concrete docks. Color choices are endless, allowing for decorative concrete projects to complement any environment.

PermaPile™ Ultimate Pile Formula

A modified elastomeric asphalt emulsion formulated to protect piles, wales and timber. Encapsulates wood preservatives and prevents marine borer attack. Bonds to and protects metal hardware. Can be zone-coated and applied on-site. Non-toxic and odorless. Perfect for marine piles, piers, docks, wales, jetties, wharves and bulkheads.

PermaPaint™

A polymer paint additive that transforms any latex paint into a durable, long-lasting, non-fading elastomeric coating. Mix with interior or exterior latex paint to extend the life of paint applications for years. VOC-free and environmentally safe. Can be brushed, rolled or sprayed.

All formulas are environmentally friendly.

End the Annual Ritual of Deck and Dock Maintenance

DeckRevive™ is an acrylic based polymer coating that resurfaces and revives old decks, docks, and other treated lumber.

DeckRevive™ is a super-tough, do-it-yourself, composite coating that will repair and protect structures from the constant expansion and contraction cycle that destroys wood.

Perfect for resurfacing wood decks, docks, boardwalks, porches, steps, ramps, gangways, rails, balusters and fences.

- Fills cracks and knots, locks down splinters and nailheads, restoring wood surfaces.
- Covers stains and provides a slip-resistant textured surface. Choice of roller determines the texture.
- Color choices are unlimited. Add one gallon of ANY color exterior latex paint to the kit and achieve color matching.
- Creates a durable new scuff, stain and fire-resistant surface that requires zero to little maintenance.
- Can be brushed or rolled on with everyday paint tools and everything cleans up with water.
- Can be applied in the morning and enjoyed that evening with minimal time-out-of-service.
- Saves thousands over the cost of replacement or annual stain and seal maintenance.
- Environmentally friendly, VOC-free, non-toxic

DeckRevive™ is the Key to Restoration and Restoration is Green at Gulf

- DeckRevive™ aids in preventing wood preservatives from leaching into the environment.
- Refurbishes existing wood structures, prolonging their service life and keeping them out of landfills.
- Is water-based, non-toxic and cleans up with water.
- Is fire-resistant and inhibits the spread of fire.
