

A non-toxic micro topping that resurfaces and transforms concrete and aging asphalt. Mixes with any color exterior latex paint to achieve color matching and create decorative patterns and designs. Revitalizes pool decks, patios, porches, steps, walkways, driveways and concrete docks.

- ✓ Covers stains
- ✓ Fills cracks
- ✓ Slip resistant texture
- ✓ Stain and scuff resistant
- ✓ Applies with brush or roller
- ✓ Tools clean up with water
- ✓ Dries quickly

**CONCRETE**  **REVIVE**

A durable, non-fading, eco-friendly coating that protects wood from the constant expansion and contraction cycle that destroys wood. Mixes with any color high gloss exterior latex paint. Transforms decks, boardwalks, steps and other treated lumber surfaces.

- ✓ Fills cracks
- ✓ Covers stains
- ✓ Locks down splinters
- ✓ Seals metal hardware
- ✓ Slip and stain resistant
- ✓ Fire and scuff resistant
- ✓ Applies with everyday paint tools
- ✓ Water based and non-toxic

**DECK**  **REVIVE**

# RESURFACE and REVIVE in ANY color.

Transform outdoor living spaces with environmentally safe polymer coatings for wood and concrete.

Save time and money!  
Resurface with durable, do-it-yourself coatings in any color.

Give new life to decks, docks, boardwalks, pool decks, patios, sidewalks, driveways and more when you resurface.

# DockRevive protects waterfront investments.

A highly textured, polymer coating designed specifically for restoring wood docks, gangways, boardwalks and more. Mixes with any solid color acrylic stain and applies with ordinary paint tools. Quick setting for minimal time out of service. Safe for marine environments.

- ✓ Locks down splinters
- ✓ Seals metal fasteners
- ✓ Fills cracks
- ✓ Non-fading
- ✓ Slip and stain resistant
- ✓ Fire and scuff resistant
- ✓ Tools clean up with water

# PermaPaint makes any paint job last.

A paint additive that transforms ordinary latex paint into a super tough elastomeric polymer coating. Extends the life of any paint job. Great for home siding, trim, doors and gutters, fences and railings, wicker and wood furniture, exterior or interior applications. Makes inside walls scrub-able!

- ✓ Prevents fading
- ✓ Enhances adhesion
- ✓ VOC-free, Non-toxic
- ✓ Mixes with any latex paint
- ✓ Use sprayer, roller or brush
- ✓ Creates a weatherproof coating
- ✓ Expands and contracts with surfaces
- ✓ Add one quart to one gallon of paint

# PermaCaulk

The only expandable wood filler on the market that offers a permanent solution for filling cracks and knotholes in wood. Properly preps distressed wood before resurfacing. Dries quickly so projects can be completed faster. Provides a smooth finish for worn decks and docks prior to restoration with *DeckRevive* or *DockRevive*.

- ✓ Seals cracks and knotholes
- ✓ Expands to fill voids
- ✓ Will not shrink
- ✓ Applies with putty knife
- ✓ Tools clean up with water
- ✓ VOC-free, non-toxic

# PermaBond

An acrylic based, polymer bonding agent specially formulated for wood. Developed for weathered deck and dock boards to ensure a strong molecular bond for *DeckRevive* and *DockRevive* resurfacing.

- ✓ Penetrates wood
- ✓ Locks into wood fibers
- ✓ Enhances adhesion
- ✓ Can be tinted to any color
- ✓ Use brush, roller or sprayer
- ✓ VOC-free, non-toxic
